Green Knowledge for Young Professionals 'The Dutch Approach'

AERES
MBO

Tailor-made education from the Netherlands

Do you work for government, business or education, and do you want to turn young professionals into valuable employees or independent entrepreneurs in business life? With agrarian, tailor-made education or a specific course program at Aeres MBO from the Netherlands, you can!

Motivated teachers

Aeres MBO from the Netherlands is a recognized agrarian training center for secondary vocational education. Education, practical experience, and entrepreneurship go hand in hand for us. Our motivated teachers combine theory and practice into an engaging course program. This will partly take place in your own country and partly in the Netherlands.

Compile your own program

We also offer English-language tailor-made programs and courses (including BTEC) in the field of dairy, poultry and pig production, landscaping and horse management. You can see all the options in the overview. Did you know you can also compile your own program in consultation? We are happy to tell you more about the tailor-made options and current rates.

Why the Netherlands?

The Netherlands are the second-largest exporter of agrarian products worldwide. Our innovative knowledge and approach to entrepreneurship are known across the globe.

Why choose BTEC Nationals?

BTEC Nationals are career-based qualifications designed to give students the skills they need to move on to higher education or go straight into employment. More employers and Higher Education institutions than ever before are choosing BTEC-qualified candidates for their academic and practical knowledge and skills.

- Business and Technology Education Council (BTEC)
- International Qualification Program (from the UK)
- 103 countries recognize BTEC credits
- Recognized by over 200 universities worldwide
- 1.3 million students per year
- Better Job Opportunities
- Access to Higher Education
- Practical approach
- Learning by Doing!
- Modular system
- Teamwork
