

Ref	Project title: Upgrading the Technical Agriculture Education System in Lebanon				
Name of legal entity	Country	Client	Budget, €	Starting date	End date
AERES MBO	Libanon	FAO	€ 88.000	01-10-2017	30-09-2018
Project description					
<p>The present subproject is part of a project of the Ministry of Agriculture and FAO to upgrade the Lebanese agricultural education system with funding from the Netherlands. The project is implemented in partnership with AVSI and ILO and in collaboration with UNICEF.</p> <p>The project intends to enhance the employability of young Lebanese and displaced Syrians and other refugees in Lebanon by giving them the opportunity to acquire the necessary technical skills to access improved career opportunities in agriculture and agribusiness in Lebanon or in Syria upon their return accordingly.</p> <p>The outcome is to have the seven agriculture technical schools managed in a sustainable manner providing adequate high quality agriculture technical training to young Lebanese and Syrians to respond to the labour market demand. The agricultural technical schools deliver graduates at Baccalauréat Technique (BT) level.</p>					
Services rendered					
<ol style="list-style-type: none"> 1. A revision of the existing BT program is conducted and related reform directives are formulated in line with the national qualification and harmonization system. 2. The BT courses contents for year 1, 2 and 3 are updated, include field practice and related textbooks with relevant attractive, interactive and practical educational materials for the specific courses, and ready to be handed over to MoA for implementation. 3. Follow-up activities and capacity building plan for longer term support of the MoA schools upgrade is developed with FAO to be partially funded by the Nuffic program.
